

420W Waterproof Beam Moving Head Light

- Input Voltage: 110V-240V AC, 50/60Hz;
- Total Power: 600W;
- Lamp Source: Ushio / Osram 421W Optional;
- Color Wheel: 14 colors + white light, bi-directional rotation, adjustable speed, half-color effect available;
- Static Gobo Wheel: 13 gobos + white light, bi-directional rotation, adjustable speed, gobo shake function supported;
- Prism: 16-facet prism, bi-directional rotation, adjustable speed;
- Focus: 0~100% linear focusing;
- Frost Effect: Supported;
- Dimming: 16-bit high precision shutter dimming;
- Strobe: 1-25Hz adjustable strobe speed;
- Beam Angle: 2°;
- Scan Range: X-axis 540°, Y-axis 270°, XY inversion supported, adjustable scanning speed;
- Working Mode: Standalone mode, sound active mode, master-slave mode, DMX512;
- DMX Channel: 16 / 20 channel optional mode;
- Advanced Functions: Adopts 6-layer coated high-precision cemented optical lens, equipped with XY axis automatic positioning correction function. The LCD display can check the service time of lamps and bulbs for convenient maintenance. Built-in automatic speed adjustment fan. The light source power will be automatically reduced by 50% when mechanical blackout;
- Housing: High-strength cast aluminum chassis;
- Protection Grade: IP65 waterproof and dustproof;
- Dimension: 40×30×68cm;
- Net Weight: 32.7KGS
