Start with your market and product needs

Request a sample shortlist and wholesale quotation. Share your sales country, business type and preferred style codes. ZULIZ does not set a minimum order quantity for distributor orders and replenishment; products, availability, delivery and commercial terms are confirmed per order.

Discuss brand distribution, retail or e-commerce cooperation. Online English training, refresher training and in-store training can be arranged for partners. Territory, channel rights and practical support are agreed for each partnership.

For a fit-sensitive opening order: confirm model-specific size and width documentation, sample fitting, size labelling and replenishment details. Ask for permitted operating data with its market, dates and measurement definitions.
